

I want to speak in strong opposition to this issue about the LPFM. I feel that my KLOVE station, 94.3 FM in the Chicago area, serves me wonderfully. And that losing this station for any reason would be a terrible thing. It is a vital part of our community and serves me as a member of the general public. Therefore I am in opposition to this move. Please do not change things to negatively impact my ability to hear and receive this station or others like it. Thank you for your service.
